

Journey of a Dollar

Follow the journey of your donation to Big Brothers Big Sisters Twin Cities

Volunteer Training

All BBBS volunteers are trained in youth development and mentoring best practices to prepare them to be a great Big. Once they complete the training, they are ready to be matched with their Little!

Volunteer Recruitment & Child Safety

You help us recruit great mentors and ensure the safety of the youth in our programs. BBBS' application process includes reference and background checks, and an interview with a BBBS staff member.

Match Introduction

Our expert matching staff pairs Bigs and Littles based on geography, common interests and other personality traits. Then, the Match gets to meet for the first time with their Match Engagement Coordinator and the Little's parent/guardian. This is just the start of an awesome new friendship!

Match Activities & Events

Matches get together 2-4 times per month. Donors help us to provide free activities and events including tickets to theater and sporting events, game nights, museum passes, and more! These activities, big or small, each are a building block to creating a strong match.

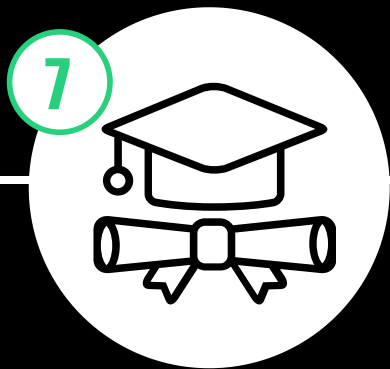

Teen Programming

We help Littles in grades 8-12 explore post-secondary options including field trips, workshops and activities to introduce teens to college access, workforce readiness and healthy lifestyle topics.

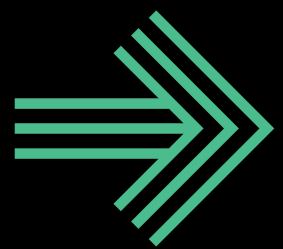

Ongoing Support & Training

Match Engagement Coordinators are in regular contact with the Big, Little and parent/guardian throughout the match to provide support. Donors ensure that we can offer in-person and on-demand training, videos and resources on relevant topics.

Match Celebration

We celebrate Matches that "graduate" from our program after high school! These matches have been together for 6-10 years... Amazing! Many Matches choose to stay in contact even after their formal relationship with BBBS ends.

Alumni Services

BBBS supports Littles after high school graduation through our Alumni Services. This includes financial aid counseling, post-secondary education support, internship and job opportunities, and more.
